- under no circumstances should inducements to invest be accepted. While reasonable entertainment by investment institutions is accepted as business practice, the acceptance of gifts other than mere tokens, is not proper for a public official whether or not such gifts influence or are intended to influence him/her in his/her work.

Read with section 13 and 99(2)(g) of the Local Government : Municipal Finance Management Act, 2003 (Act No. 56 of 2003) these regulations have been promulgated to regulate municipal investments. Various regulations and provisions have been set out in this section to regulate the investment of surplus cash of a municipality.

6. **STANDARD OF CARE**

Investments made by the municipality, or by an investment manager on behalf of the municipality:

- must be made with such judgment and care, under the prevailing circumstances, as a person of prudence, discretion and intelligence would exercise in the management of that person's affairs;
- may not be made for speculation but must be a genuine investment; and
- must in the first instance be made with primary regard being to the probable safety of the investment, and in the second instance to the liquidity needs of the municipality and lastly to the probable income derived from the investment.

7. **PERMITTED INVESTMENTS**

The municipality may invest funds only in any of the following investment types and institutions:

- securities issued by the national government;

- listed corporate bonds with an investment grade rating from a nationally or internationally recognised credit rating agency;
- deposits with banks registered in terms of the Banks Act, 1990 (Act 94 of 1990);
- deposits with the Public Investment Commissioner as contemplated by the Public Investment Commissioners Act, 1984 (Act 45 of 1984);
- deposits with the Corporation for Public Deposits as contemplated by the Corporation of Public Deposits Act, 1984 (Act No. 46 of 1984);
- banker's acceptance certificates or negotiable certificates of deposits of banks registered in terms of the Banks Act, 1990;
- guaranteed endowment policies with the intention of establishing a sinking fund,
- repurchase agreements with registered banks in terms of the Banks Act, 1990;

- municipal bonds issued by a municipality; and
- any other investment type as the Minister of Finance may identify by regulation in terms of Section 168 of the Act, in consultation with the Financial Services Board.

#### 8. **INVESTMENTS DENOMINATED IN FOREIGN CURRENCIES PROHIBITED**

The municipality may make an investment only if the investment is denominated in rand currency and is not indexed to, or affected by, fluctuations in the value of the rand against any other currency.

#### 9. **PAYMENT OF COMMISSION**

No fee, commission or other reward may be paid to a councillor or official of the municipality or to a spouse or close family member of such a councillor or official in respect of any investment made or referred by the municipality.

If an investee pays any fee, commission or other reward, to an investment manager in respect of any investment made by the municipality, both the investment manager and the investee must declare payment to the council of the municipality by way of a certificate disclosing full details of the payment.

10. **REPORTING REQUIREMENTS**

The accounting officer of the municipality must within ten (10) working days of the end of each month, as part of the section 71 report required by the Act, submit to the mayor of the municipality a report describing in accordance with the generally recognised accepted accounting practice (GRAP) the investment portfolio of the municipality as at the end of the month.

The report must set out at least:

- the market value of the investment as at the beginning of the reporting period;
- any changes to the investment portfolio during the reporting period;
- the market value of each investment as at the end of the reporting period: and
- fully accrued interest and yield for the reporting period.

11. **RATING OF PERMITTED INVESTMENT INSTITUTIONS**

The municipality shall rely on the credit rating analysis from external credit rating agencies as submitted by the financial institutions from time to time. When an investment institution no longer has the minimum acceptable credit rating, all investments when appropriated must be liquidated.

12. **PORTFOLIO DIVERSIFICATION**

The municipality must take all reasonable and prudent steps, consistent with its investment policy and according to the standard of care prescribed to diversify its investments across institutions, types of investments and investment maturities.

A good rule is not to invest with banks with investments of more than 15% of its capital and reserves and to examine such in conjunction with a bank rating by an independent agency.

As a general principle it must be accepted that the greater the return, the greater the risk.

13. **BORROWING AND RE-INVESTMENT**

There may not be borrowings for re-investment as this is tantamount to taking a view on interest rate movements and could be construed as speculating with public funds.

14. **MATCH THE INVESTMENT TYPE TO THE FUND**

Should investments in growth related instruments be considered, only funds which are unlikely to necessitate a forced sale should be used, to ensure that the funds used for the investment are of such nature that the investment can be realised when market conditions are most favourable.

15. **REGISTERED FINANCIAL INSTITUTIONS**

Investments must only be made in accordance of the regulations as in **section 6** of the Government Gazette Notice No. R308 dated 1 April 2005. (Refer Chapter E : Permitted Investments). The municipality must ensure that it places investments only with credit worthy institutions and regularly monitors its investment portfolio.

16. **GROWTH-LINKED INVESTMENTS**

When legislation permits investments in growth linked instruments, extreme care must be exercised as in most cases market conditions will determine the value of the investment at any given time, and it should be ensured that the return of the capital invested is guaranteed.

17. **CASH AT BANK**

The “*overnight*” interest rate regularly negotiated with the Council’s bankers for money kept in the current bank account must continuously be compared to that of call deposits. These rates can be improved by fixed term investments and the overriding principle is that funds in the current account must be kept to the absolute minimum as required by cash flow projections.

18. **CONTROL AND REGISTERING OF INVESTMENTS**

The CFO must establish and maintain proper internal control structure to ensure the management of investments is protected from loss, theft or misuse. These controls include amongst others:

- a proper register of all investments made indicating the institution, fund, interest rate and maturity date. Interest must be correctly calculated and received timeously together with any capital which matures.
- investment papers and confirmation must be kept in a secured place.
- delegation of authority to subordinate officials.
- separation of functions through segregation of duties.

19. **INVESTMENT MANAGERS**

An investment manager may only be used to facilitate investments if such an appointment has been authorised by the Council in terms of its supply chain management policy of the municipality and all conditions of services and fees payable have been disclosed to the Council.

20. **INVESTMENT LIMITATIONS**

In order to ensure safe investment with the minimum risk exposure, investments are not to be made with financial institutions with ratings lower than A1/F1 as defined in the national rating definitions.
